Advanced League Updates and Reminders 1/17 - 1/19

Teams,

Fields Being Used This Weekend (reference the [Advanced Leagues Web Page for Maps and Details](#) :

- Rose Mofford
- Fear Farm
- Copper Sky

Important Information and Updates:

- [President's Cup](#) and [State Cup](#) Registration Link is up on Web Pages - Deadline to register is March 1. Teams that play in APL are not eligible to register for President's Cup. Only teams in Advanced Leagues (APL and ASL) are eligible to participate in State Cup.
- While there are no games this weekend at Tucson Kino, the new Fields will be opened and they have a grand opening celebration next week. The new fields and [location map](#) are on our website and Kino now has a "NORTH", "MAIN", and "SOUTH" complex.
- [College ID event](#) - While not relevant to those players who have games in the Spring (U12-U14), ASA is **putting on a College event for players graduating High School 2020,2021,2022,2023.**

Reminders from the Fall Season:

1. [Game Card](#) - Printing is the responsibility of the Home Team and if either team makes a roster change in the system. It is recommended that both teams print anyway. The system prevents printing 3 days or more prior to the scheduled game to allow club pass players to be added by either team. Thus if your game is on Friday at 5:00 PM, you can't print before Tuesday, 5 PM.
2. Game cards need to be emailed to advancedleagues@azyouthsoccer.org.
3. [Club Pass Policy](#) - Remind yourself of what the policy states about proper and improper usage. Teams must add players in the GotSoccer system in your team account and **NO WRITE IN PLAYERS ALLOWED** . If you update your roster, you should always print the game card to bring to the game if the home team as already printed a game card prior to your changes. That is the proof that you made the change in the system.
4. Coaches must visibly display their pass while in the technical/player area.
5. Schedules have been final since December 15. If you need to reschedule your game the same procedure and [FORM](#) are on the league web page.

Good Luck on the Field!
