

### **Player Transfer and Release Request Facts**

- Player release and transfer requests are processed 6 days from date of submission or upon approval(s) of club(s). Transfers will NOT be processed without approval of ACCEPTING CLUB.
- A “Transfer” is when a player moves from one ASA club to another ASA club within a season. There is no charge directly to the player for a transfer. There is a \$10 transfer fee invoiced to the receiving club for each transfer including the difference in tier fee (if any).
- A “Release” is when a player wants to leave their current club without plans for immediate registration at a new club. Once the release is processed, the player no longer holds a current registration and is not insured. There is no charge for a release. However, if the player registers with a new club, the \$10 transfer fee applies invoiced to new club along with the difference in tier fee (if any).
- A player can only be registered to one ASA club at a time.
- Requests can be submitted by the player/parent **ONLY**.
- Requests are submitted ONLINE using the transfer or release request link found on the ASA website.
- The link will prompt player/parent to log into their Got Sport player account.
- If player/parent does not know their password, then click on “Forgot password?”
- Clubs cannot deny a player transfer or release request.
- Once the player release/transfer request is processed, players are still bound to financial agreements made with the club upon registration. Parent/player must reach out to the club to obtain information on their outstanding financial obligations.
- Requests are processed by Arizona Soccer Association.
- Players who transfer from one club to another club after November 1st will be ineligible for participation in Arizona Presidents Cup and State Cup for that seasonal year. **NOTE:** The November 1<sup>st</sup> transfer deadline does not apply to players registered as in-house/Rec/Tier 4 or to U19 players for State and Presidents Cup.
