

HOW TO IMPROVE TEAM/CLUB PERFORMANCE THROUGH MATCH ANALYSIS

Join us on May the 9th at Noon Pacific time

Previously, your players had no way to watch games, engage with stats, or review their performance. They would forget a lot of what they were told in training sessions and coaches would have to waste valuable training time repeat themselves.

Now, your players can review the stats of their own performance, and of their team's performance. They can have online discussions with teammates and coaches, and are able to ask questions outside their usual training sessions. Your players are fully engaged in their development.

Home	Score	Opp
2		3
41%	Possession	59%
0	Penalties	0
43	Regains Won	54
Home	Attacking 1/3 Entry	Opp
15		27
4	Crosses	12
3	Corners	9
23	Throw-Ins	26
Attacking 1/3 Entries to Shots		
60%	1 Chance in every 1.7 Attacking 1/3 Entries	
Shots to Goals		
22.22%	1 Goal from every 4.5 chances	
Attacking 1/3 Entries to Goals		
13.33%	1 Goal from every 7.5 Attacking 1/3 Entries	

How do soccer stats improve your team performance?

Players gain a better understanding of their game.

They gain a better understanding of their performance.

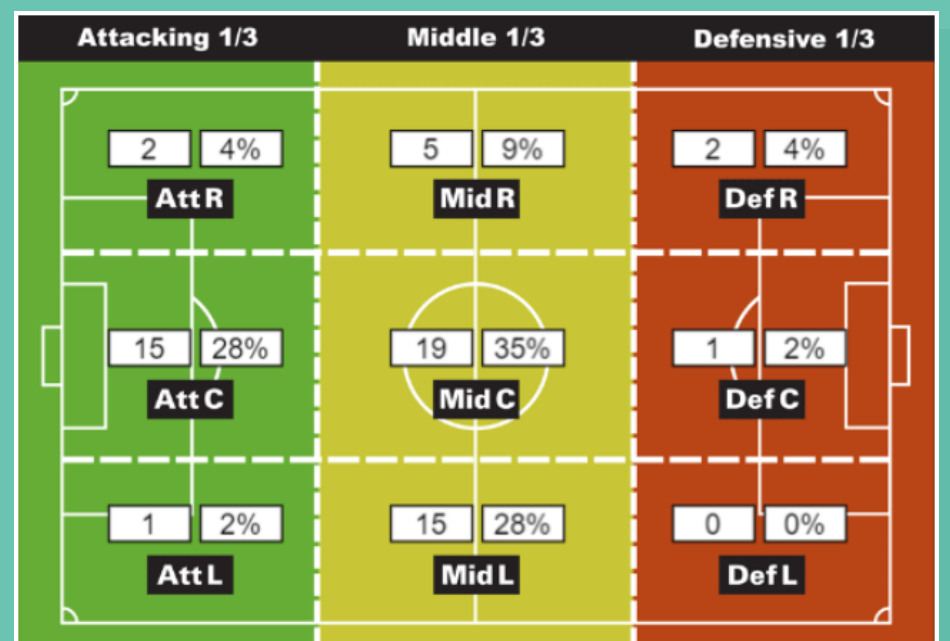

Players can engage with interactive stats and online messages from the coach whenever they want to.

Your players retain more of what they have learned and play better.

Coaches have professional performance data to help them with their online and in-person coaching.

The best bit?

We can analyze your games for you!
